

## **Trumastic Luxury Silk**

having superior grade pigment possessing excellent levelings         hiding and washability properties. Additionally it has very good crack bridging ability enhancing the life of the coating. It provides a smooth luxurious silk finish.         Recommended Usage:       Oasis Trumsafic Luxry Silk is suitable for decorrative application on interior surfaces like concrete, plaster brickwork, masonry, gypsum board, asbestos, and wooden surfaces.         Pack Size:       1 lifre, 1 USG [3.78L], 5 USG [18.9.].         Physical properties:       Initer, 1 USG [3.78L], 5 USG [18.9.].         Physical properties:       Smooth, Silk         Colume Golds %):       45 ± 2%         Specific gravity:       1.28 ± 0.03         Theoretical spread rate:       15 m?litre at 30 microns DFT         Tash point:       Non-flammable         Drying Time:       Drying time will vary according to temperature, humidity and film thickness and will be afficient accordingly e.g. the drying times quoted will be significantly longer in cold, damp conditions.         Surface dry:       1 hour         Recout window:       2.4 hours         Surface Preparation:       • Surfaces must be clean, completely dry and free from defects, oil, wax, grease and dust. Ary chaking or any loose filling material must be removed by scraping or brushing with a stiff bride brush.         • Use brush, roller or spray.       • Ready to use ("Depending on sile conditions the paint can be diluted with maximum 1 part clean water to 10 parts paint].
